Master Schedule of User Fees, Taxes, and Fines
 Effective November 1, 2015

INTRODUCTION:

Full Costs are subject to a minimum of 1/2 hour of the Fully Burdened Overhead Rate for positions performing service. Advance deposits may be required.

DEFINITIONS:

Full Cost - Full Cost is defined as the full cost incurred by the City in performing a service including, but not limited to, the fully burdened overhead rate for staff time, fully burdened overtime rate for staff services performed after normal working hours, the cost for materials, vehicles, equipment, and contracts. Material costs include any supplies used (i.e.. paper, water meter, pipe, etc.). Vehicle costs are based on hourly vehicle rates that include operations and maintenance costs, replacement cost of vehicle, overhead/administrative costs, insurance, accident repair costs, and fuel. Contract costs is the cost for a contractor to perform work on behalf of the City. Fully burdened overhead and overtime rates are updated at least once per fiscal year when significant changes to salaries, benefits and/or overhead rates (cost allocation plan) are updated. Vehicle and equipment rates are updated bi-annually as part of the budget cycle. For current rates you may submit a public records act (PRA) request to the City Clerk's office.

Direct Cost - Direct cost is defined as the direct cost incurred by the City in performing a service, including the direct wages and benefits calculated as the productive hourly rate for employee(s) providing the service, actual equipment cost directly attributable to the service provided, and any actual discrete costs incurred by the City in performing the service (ie: payment to vendor for services provided).

Fully Burdened Overhead Rate - a billable rate that captures all costs associated with employees, over and above gross compensation or payroll costs. Typical costs associated with the burdened rate include payroll taxes, worker's compensation, health insurance, paid time off, pension contributions, other benefits, and indirect costs including departmental and citywide administrative overhead allocations.

Fully Burdened Overtime Rate - a billable rate that includes only those benefits applied to overtime (unemployment, workers compensation) and direct departmental and citywide overhead/administrative costs.
